APPENDIX A

Policy Governing the Filing of Affiliate Contracts Pursuant to Indiana Code section 8-1-2-49(2)

This policy is based upon the requirement in Indiana Code section 8-1-2-49(2) that all “management, construction, engineering, or similar contract, made after March 8, 1933, with any affiliated interest” (“affiliate contracts”) be in the public interest. The Indiana Utility Regulatory Commission may, after investigation and a hearing, disapprove any affiliate contract that is not in the public interest. In order to be considered in the public interest, the Commission has determined that affiliate contracts must, at minimum, conform to the following standards.

I. Applicability

Where applicable, the definitions set forth in I.C. 8-1-2-1 shall be applied to this policy.

II. Scope of the Commission’s Review

The provisions of this General Administrative Order provide the general parameters to which affiliate contracts must adhere. These parameters do not limit the Commission’s ability to review fully the express terms of each affiliate contract.

III. “Affiliate contract” Defined

“Affiliate contract” means a management, construction, engineering, or similar contract, made after March 8, 1933, with any affiliated interest, as defined in IC 8-1-2-49.

IV. Affiliate Contracts in the Public Interest

In order to be considered in the public interest, as required by IC 8-1-2-49, affiliate contracts must, at minimum, do the following:

- (a) Include clear and reasonably detailed information regarding costs and how they are calculated. This information should be reasonably detailed relative to the cost of products or services in the contract.
- (b) Include clear information regarding the scope of work or duties of the parties. This information should be reasonably detailed relative to the nature of the contract.

Affiliate contract should also do the following:

- (a) Include the following terms:
 - (1) A definite termination date, not more than five (5) years from the effective date of the contract.
 - (2) Notice that the contract, pursuant to IC 8-1-2-49(2), shall not be effective until it is filed with the Commission.

(b) Exclude the following terms:

- (1) A provision that provides for an automatic contract renewal or renewal without notice to all contracting parties and the Commission.
- (2) A provision that provides for an effective date that is prior to filing with the Commission.

V. Filing Affiliate Contracts with the Commission

Affiliate contracts shall be filed through the Commission's electronic filing system and are subject to the requirements set out in GAO 2016-1. They shall be considered filed on the date submitted through the system.

An affiliate contract filing should contain the following:

- (a) Contact information for the utility or attorney sending the affiliate contract.
- (b) A discreet affiliate contract number, with that number included at the top of the underlying contract and all amendments, task orders, change orders, and any other contract changes or attachments. This is subject to any requirements or limitation of the electronic filing system.
- (c) If an affiliate contract is the result of a hearing before the Commission or is anticipated to be referenced in a hearing, the hearing cause number shall be clearly referenced in the contract. The contract must be filed in the cause as well as separately filed as a non-docketed affiliate contract in the electronic filing system.
- (d) If filing an amendment or other contract change or attachment, the entire underlying contract must be included to facilitate proper review.
